

TEDDY RHIM

Back-end Developer

teddyrhimpro@gmail.com | linkedin.com/in/teddy-rhim | github.com/TeddyRhim | teddyrhim.github.io/portofolie

PROFILE

Back-end developer with 7 years of experience in API design, systems integration and business-process automation. Strong in PHP/Symfony and SQL optimisation, complemented by Python/FastAPI, data processing and integration of locally hosted LLMs. Looking for a permanent position in back-end development, SaaS or AI solutions.

PROFESSIONAL EXPERIENCE

Back-end Developer (PHP / Symfony) – Apimo

November 2019 – August 2024 · 5 years

- Built and maintained **back-end** features for a real-estate CRM used internationally.
- Designed, evolved and maintained **REST APIs** (CRUD, webhooks, **JWT** authentication) and **third-party service integrations**.
- Business services with **Doctrine ORM**, **SQL query optimisation**, **MySQL / PostgreSQL** databases.
- Contributed to the evolution of the **technical architecture** and the **migration** of applications to Symfony 6.
- Web interfaces in HTML5, CSS3, JavaScript/jQuery, in collaboration with product and functional teams.
- Automated jobs: **cron**, **JSON**, **XML** and **CSV import/export**, **scraping**.
- **Tests**, **code reviews** and good practices for code quality and maintainability.
- **Security**: authentication, user permissions, API protection (JWT), prevention of XSS, CSRF and SQL injection.
- Git, **Agile/Scrum** environment.

Full-stack Developer – Zazmic (freelance mission)

February 2025 – July 2025 · 6 months

- Designed an interactive **benchmarking interface** in **Vue.js**: visualisations fed by business data.
- Integrated an **AI engine** that turns user parameters into **safe SQL queries** to automatically generate dashboards and indicators.

Full-stack Developer – Zazmic (freelance mission)

September 2025 – February 2026 · 6 months

- **Data-centralisation** platform (real-estate sector): multi-source data, **REST API**, **automation** of business processing, dashboards and analysis tools.
- Stack: Symfony, PostgreSQL, Python, Docker, JavaScript/jQuery.

Data Operations Technician & Developer – Call To Action (CTA)

August 2026 – early October 2026 · 2 months

- Running and maintaining the production environment: incident handling, data integration and processing, support for call-centre agents.
- **Next.js / Python (FastAPI)** application to manage large volumes of phone numbers, check their RCS eligibility through an API and automate sending operations.
- Centralisation, standardisation and **automation** of a business workflow (CadreOp).
- Web interface to manage directory trees spread across several servers, with generation of Python scripts.
- **AI chatbot** on a **locally run Llama LLM**, connected to several databases to support supervisors.

PERSONAL PROJECTS

- **Chatbot IA** — French-language chatbot using a 100% local RAG (Ollama, ChromaDB, hybrid keyword and semantic search), with measured (hit@k, MRR) and sourced answers. github.com/TeddyRhim/ChatbotIA
- **Assistant candidatures** — local tool (Python, Streamlit, SQLite) that collects job offers, compares them with a profile and prepares targeted application files. github.com/TeddyRhim/assistant-candidature
- **CTA Campaign Manager** — web application (FastAPI, PostgreSQL, Next.js, TypeScript): REST API with JWT, Alembic migrations, dashboard. github.com/TeddyRhim/cta-campaign-manager

SKILLS

Languages: PHP, Python, TypeScript/JavaScript, Java, Kotlin, LUA, Shell/Bash

Back-end & APIs: Symfony, FastAPI, Spring Boot, REST/SOAP APIs, API versioning, OAuth2, JWT, cURL, web scraping, automation, microservices, design patterns

Databases: SQL, optimisation, Doctrine, SQLAlchemy, PostgreSQL, MySQL

AI: local LLMs (Ollama), RAG, ChromaDB, embeddings

Front-end: Next.js, Vue.js, JavaScript, jQuery, Tailwind CSS

DevOps & tools: Docker, Kubernetes, Linux, nginx, CI/CD, Git

Methods: Agile/Scrum, project management, testing (pytest)

EDUCATION

Web Developer Diploma (French RNCP level 5, 2-year higher-education level), RNCP38436 · **Epitech** · 2018 – 2019

Lycée Albert Camus, Fréjus · Vocational certificate (CAP) in Cooking · 2014 – 2017
